## 24th March 2023

### Science

This week in Science we have been thinking about plants and how they grow. We watched a time lapse video of a sunflower growing from being just a seed and talked about the changes that we saw happening. We had a go at sequencing pictures of how a flower grows. We then though about what plants and flowers need to grow. We discovered that they get their nutrients from light, water and the soil. We then drew a plant and labelled the different parts of it.

### Design & Technology

Next week in our Design and Technology we will be designing our own race cars. We will need some recyclable materials to make our cars so please could you send this in on Monday.
Thank you

### Stations of the Cross

Next Friday (31st March) we will have a very special whole school service called Stations of the Cross. This is where we think about Jesus' journey with the cross on Good Friday to His resurrection on Easter Sunday. This service starts at 9am in the hall and you are very welcome to join us.

### Star of the Week

Lillie-Mae

for some lovely thoughts and ideas in our Collective Worship this week.

Well Done!

### Homework

For this homework Mickey has a Science challenge for you all about plants that links to the work we have been doing in Science this week.

In Story Time with Jesus this week, you will hear all about Jesus' triumphal entry to Jerusalem at the beginning of Holy Week.
