

## RSHE

In RSHE this week we have been thinking about life cycles. We thought about the different ways that we change as we get older, e.g. we get
 bigger, we can start to talk, we learn how to walk, we eat different foods etc.

We looked at the different stages of growing: baby, toddler, child, teenager, adult and old person.

## Homework

For your homework I would like you to make sure that you have read your reading book to a grown up at home.

I would also like you to use the part whole model to explore different ways of making the number 6. For this the children could use dry pasta or some of their toys. Please post photos of this on Dojo.

This week in Maths we have been exploring using the Part Whole Model. A part whole model helps us to see how a whole number can be split into parts. In the example below we can see that one of the ways to make 4 (the whole) we can add 1 and 3 together (the parts).

# Story Time With Jesus 

 8th December 2023This week's 'Story Time With Jesus' we continue the story of the very first Christmas. In today's video we meet the shepherds who were told of Jesus' birth and how they travelled to Bethlehem to visit Him in the stable.

You can watch the video by following this link

## The Story of Christmas (Jesus and the Shepherds) - YouTube

After watching the video spend some time chatting about the story. If you wish you could draw a picture of Jesus in the stable with Mary, Joseph and the shepherds.
(if the above link doesn't work when typing please visit our Class Dojo page. I shall post a link for this video in my end of week message)

## The Part Whole Model

Using objects such as dry pasta or small toys let the children explore different ways of making the number 6.
